## Summary

Computer Science undergraduate at NIT Jalandhar with strong interest in Data Structures & Algorithms, Competitive Programming, and Full Stack Web Development. Solved 600+ coding problems across platforms and built scalable MERN applications integrating external APIs and analytics systems.

## Education

|                                                                      |             |
|----------------------------------------------------------------------|-------------|
| <b>Dr. B.R. Ambedkar National Institute of Technology, Jalandhar</b> | 2025 – 2029 |
| B.Tech in Computer Science & Engineering                             | CGPA: 8.3+  |
| JEE Mains: 99.2 Percentile    Qualified JEE Advanced                 |             |

## Projects

### Competitive Programming Tracker

[Live](#) [Code](#)

- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, GraphQL, JWT, Tailwind CSS
- MERN platform tracking DSA progress, contest activity, and consistency metrics across platforms
- Integrated LeetCode GraphQL API to fetch real-time submissions, contest ratings, and topic-wise performance analytics
- Implemented SM-2 spaced repetition algorithm for structured problem revision and retention
- Designed MongoDB aggregation pipelines for topic-wise performance insights and progress reporting
- Integrated Codeforces API for contest history tracking, rating analysis, and performance visualization

### Hostel Management System

[Live](#) [Code](#)

- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT, REST APIs
- Built full-stack system for hostel operations, resident records, and administrative management
- Implemented JWT authentication with role-based access control for secure multi-user access
- Designed RESTful APIs and optimized database queries for efficient data retrieval and reduced latency
- Deployed scalable Node.js backend on Render with production-ready configuration

## Technical Skills

**Languages:** C++, C, Python, JavaScript

**Stack:** MERN (MongoDB, Express.js, React, Node.js), REST APIs, JWT Authentication, Database Design

**Core CS:** Data Structures & Algorithms, Object-Oriented Programming (OOP), DBMS, Operating Systems

**Problem Solving:** Binary Search, Sliding Window, Dynamic Programming, Graphs, Trees, Greedy, Backtracking

**Tools:** Git, GitHub, VS Code, Postman, Render

## Competitive Programming

- Solved **600+** algorithmic problems across LeetCode, Codeforces, CodeChef, and other platforms
- Solved **400+** problems on LeetCode with Contest Rating **1565** (Top 38.23%), strong in Binary Search, Sliding Window, Greedy, and Graphs
- Achieved **Codeforces Pupil** (Rating: 1214) with 150+ problems solved through regular contest participation
- Earned **CodeChef 2★** rating through consistent contest engagement and performance
- Maintained **137+ day** coding streak demonstrating consistency and discipline

## Achievements

- **Top 5 Rank** – FORGE 1.0 Buildathon, NIT Jalandhar
- Qualified **JEE Advanced 2025**; secured **99.2 Percentile** in JEE Mains 2025
- Achieved **LeetCode Rating 1565**, **Codeforces Pupil (1214)**, and **CodeChef 2★**

## Languages

Hindi (Fluent)    English (Professional Proficiency)
