[LeetCode](#) | [Codeforces](#) | [CodeChef](#) | [GitHub](#) | [LinkedIn](#) | [Portfolio](#)

Summary

Second-year Computer Science undergraduate at NIT Jalandhar with a strong interest in Software Engineering, Full-Stack Web Development, Data Structures & Algorithms, and Competitive Programming. Solved 1000+ DSA and Competitive Programming problems across major coding platforms and built scalable MERN applications integrating external APIs and analytics systems.

Education

Dr. B.R. Ambedkar National Institute of Technology, Jalandhar	2025 – 2029
B.Tech in Computer Science & Engineering	CGPA: 8.16

Projects

Competitive Programming Analytics Platform [Live](#) [Code](#)

- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, GraphQL, JWT, Tailwind CSS
- Built a full-stack platform to track DSA progress, contest activity, and consistency across multiple coding platforms
- Integrated LeetCode GraphQL API to fetch real-time submissions, contest ratings, and topic-wise performance analytics
- Implemented SM-2 spaced repetition algorithm for structured problem revision and retention
- Designed MongoDB aggregation pipelines for topic-wise performance insights and progress reporting
- Integrated Codeforces API for contest history tracking, rating analysis, and performance visualization

Hostel Management System [Live](#) [Code](#)

- **Tech Stack:** React.js, Node.js, Express.js, MongoDB, JWT, REST APIs
- Built a full-stack hostel management system for hostel operations, resident records, and administrative management
- Implemented JWT authentication with role-based access control for secure multi-user access
- Designed RESTful APIs and optimized database queries for efficient data retrieval and reduced latency
- Deployed scalable Node.js backend on Render with production-ready configuration

Technical Skills

Languages: C++, C, JavaScript, Python

Tech Stack: MERN (MongoDB, Express.js, React.js, Node.js), REST APIs, GraphQL, JWT Authentication

Core CS: Data Structures & Algorithms, Object-Oriented Programming (OOP)

Problem Solving: Binary Search, Sliding Window, Dynamic Programming, Graphs, Trees, Greedy, Backtracking

Tools: Git, GitHub, VS Code, Postman, Render

Competitive Programming

- Solved **1000+** algorithmic problems across LeetCode, Codeforces, CodeChef, and other platforms
- Achieved the **Knight** title on LeetCode while solving **550+** algorithmic problems (Top 6.01%)
- Achieved the **Specialist** title on Codeforces with **300+** problems solved through consistent contest participation
- Earned the **3★** rating on CodeChef through consistent contest participation
- Maintained a **190+ day** coding streak, demonstrating consistency and discipline

Achievements

- Selected as a **GSSoC'26 Contributor**, contributing to open-source projects
- Qualified **JEE Advanced 2025**; secured **99.2 Percentile** in JEE Mains 2025
- Achieved **Knight** on LeetCode, **Specialist** on Codeforces, and **3★** on CodeChef

Languages

Hindi (Fluent) English (Professional Proficiency)
